Product Listing Component

- Product details page where I'm dynamically fetching product data from the product listing page. Users can view product details and add the product to the cart.

Cart Component

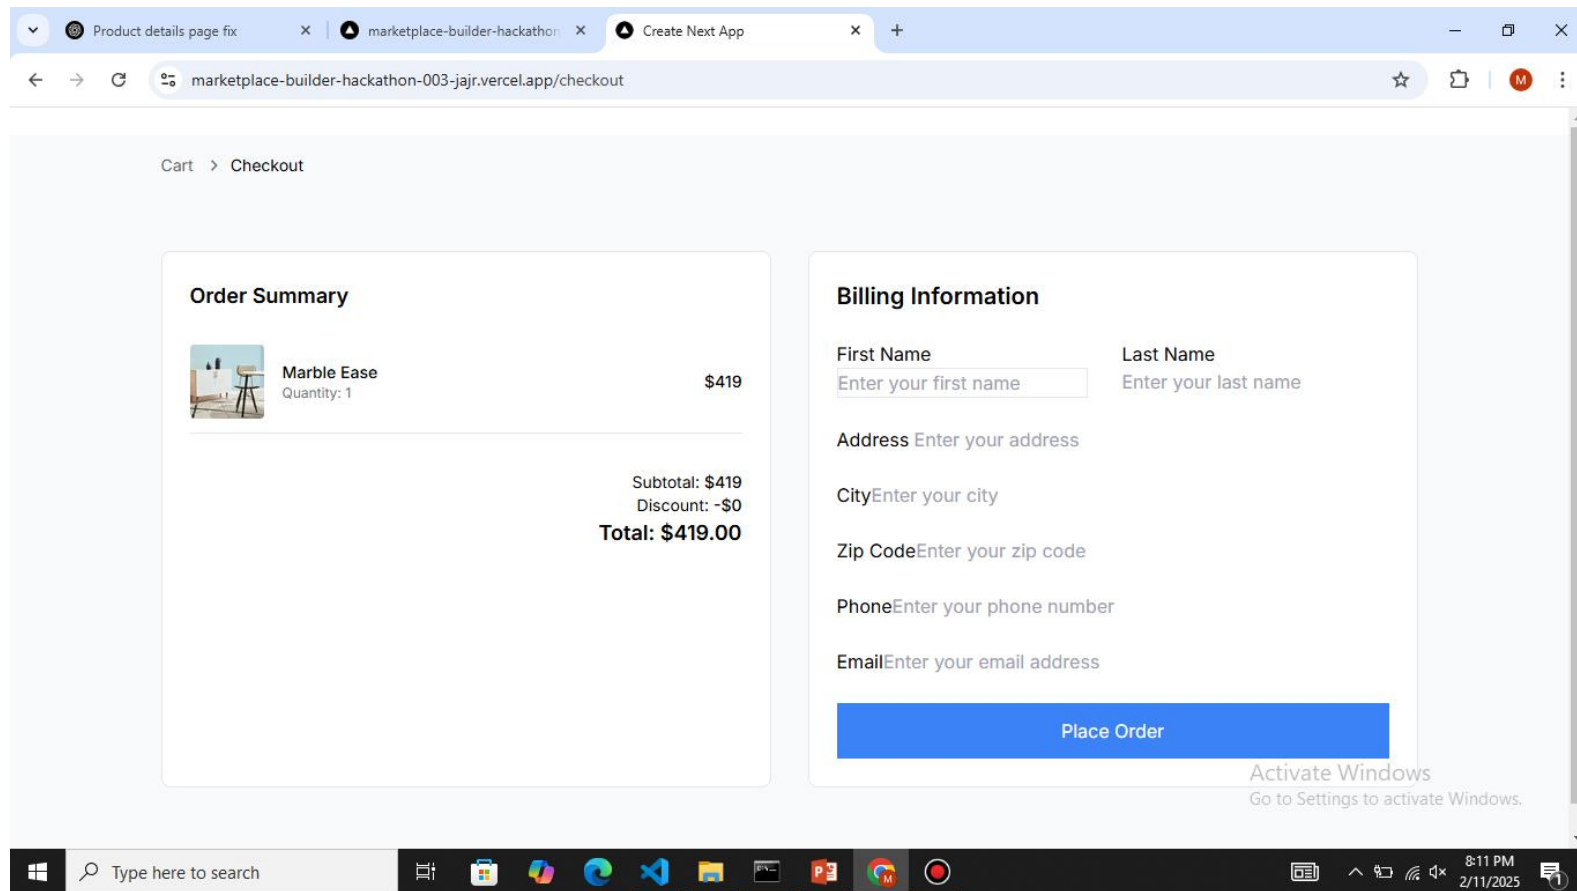

Cart component where users can add products and proceed to checkout. When proceeding to checkout, a popup appears with two options: Cancel or Proceed to Checkout. If Proceed to Checkout is clicked, it navigates to the checkout page.

Checkout Component

- Cart Summary:** Fetches cart items from Redux, calculates prices (subtotal, discount, total), and displays item details.
- Billing Form:** Collects user details with validation, showing errors for missing fields.
- Order Placement:** On valid submission, shows a success alert, clears the cart, and redirects home; otherwise, displays an error.

Login and signup via clerk

To exit full screen, press and hold **Esc**

Navbar component

- Navigation Bar:** Displays links for Home, Shop (with a dropdown), About, Blog, and Contact.
- Cart & Wishlist:** Uses **Redux** to show cart items and icons for wishlist, search, and cart.
- User Authentication:** Uses **Clerk** for login/signup and displays the user button if signed in.
- Search & Dropdown Menus:** Toggles search input and shop categories dropdown dynamically.
- State Management:** Manages **menu, search, and dropdown visibility** using React **useState**.
- Mobile-Friendly Menu:** Includes a **hamburger menu** for mobile users, with collapsible navigation and icons.
